NOTE: 1. Operators in any classification shall be paid an amount per hour equal to the sum of the prevailing wage and the amount shown in the latest "Schedule of Average Annual Equipment Ownership Expenses" publication issued by the Illinois Department of Transportation.

2. Such inclusion (including incorporation by reference) in a contract shall not and cannot contradict or affect the interpretation of this determination, no matter what other provisions of such contract or advertisement may say. If any such other provision shall be held to contradict or affect the interpretation of this determination, this determination shall be null and void, thereby rendering the contract null and void. The Department shall be the sole authority as to the interpretation of this determination.

3. Failure to comply with this determination shall be a material breach of such contracts. Failure to comply includes but is not limited to both a failure to keep an accurate record of the names, occupations and actual wages paid, which record shall show the various activities and classifications of work undertaken by each individual, each day, and as well as failing to pay appropriately. A contractor shall show compliance to the public body by filing with the Department of Labor a not otherwise investigated compliance statement either a following statement under penalty of perjury and fraud from an officer of the company, or a following statement of payroll and non-payroll records that the contractor has complied with this determination or a verification to the same effect from a certifying public accountant following an audit. A failure to present such a verification shall constitute a failure to comply, and shall be the basis for liens by or for all employees.

Other Classifications of Work:

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If there is no such definition on file, the Bureau of Labor Statistics SIC list will be used. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. Further, if no such neighboring county rate applies to the task, the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination.

2. comply on the part of a contractor followed by contractual payment notwithstanding a public body, would reveal the determination stipulation as in fact unenforced by the public body, rendering both determination stipulation and contract null and void for purposes of the Prevailing Wage Act.

3. The definitions of owner/operators and independent operators can be found in "Guidelines Concerning the Illinois Prevailing Wage Act".

4. This determination incorporates and includes the Department's "Guidelines Concerning the Illinois Prevailing Wage Act" and the Act itself.

5. Overtime applies as shown to hours after 40 in a week, after eight hours in a day, Saturdays and Sundays. There is no 4-10s exception. Further, overtime applies to combinations of private and public work. Thus, if an employee works 38 hours of private work in a week before 4 hours of public work, 2 hours of the public work is overtime at prevailing wage. Thus, too, an employee who works 6 hours in private work and 4 hours on public work has worked 2 overtime hours at the prevailing wage. Overtime problems often occur regarding supposed before and after work vehicle driving; for a description of the coverage of the Act as to such situations, contact the Superintendent of the Conciliation and Mediation Division for the Department's "Letter on Travel."

This electrician classification is subject to a further 3% pension "surcharge" on the hourly rate (including overtime premium). Note that the 3% does not apply to the other hourly fringe rates shown.
